DIVISION 1 & DIVISION 2 GAME REMOVALS

Hearthstone 1v1 is in danger of moving to Division 3 only. We need to see team numbers increase for this activity during spring to continue supporting it at a Division 1 and Division 2 level.

- **Hearthstone** is still seen as the most popular online card game to date.
- **Hearthstone** can be played iOS (Phone), Android (Phone), macOS, Microsoft Windows, GeForce Now, meaning it has a low bar for entry!

Now is the perfect time to recruit students into this game title and make sure they are ready for Division 1 and Division 2 spring activity!

Match Preparation Process

1.12. Match Preparation Process

For matches to start by the listed match time, teams must start all pre-match preparations, selections, bans, lobby set-up, network tests, patching, and hardware tests, at least thirty (30) minutes before the listed match time. All pre-match preparations must be complete with all participants being present in the match lobby ten (10) minutes, defined as the Scheduled Lobby Load-in Time, before the listed match time. The [1.13. Delay of Game Process](#) will begin for any team that is not fully present in the match lobby and ready to start the match by this time. If the [1.13. Delay of Game Process](#) is not continued four (4) minutes before the listed match time, it can not be used for the start of the match, but can be used for other delays.

- Teams applying the [1.13. Delay of Game Process](#) at any time must have verifiable proof, any form of timestamps pertinent to this match, as to the delay.
- If a team chooses not to progress the [1.13. Delay of Game Process](#) for the start of the match, but their opponent is still not in the lobby ready to play thirty (30) minutes past the match start time, the violating team will receive a match loss.
- The [1.13. Delay of Game Process](#) can not be used for a bracketed match that is not considered round robin if the previous rounds match is going long. Teams just follow the guidelines for [5.7 Round Progression](#) instead.

NEW TOOLS

The NJCAAE has launched the alpha version of the “Program Toolkit” for members!

The “Program Toolkit” is just one of many benefits you receive from the NJCAAE. This toolkit offers useful outlines, suggestions, and materials to help programs start or move to the next level! This, in addition to the Media Kit and the [online NJCAAE Programs](#) can help up your game!

TEAM NAMING CONVENTIONS

As the NJCAAE National Office works through registration data we would like to remind members that they MUST follow the naming convention outlined in the [Institution Platform Profiles document](#).

If you do not follow this naming process, there is a strong possibility that your team WILL NOT be put into a round robin group for the season. This happens because names that do not follow the outlined process are not recognized in our system. Each of your teams must have a unique name!

NJCAA ESPORTS

In 2019 the National Junior College Athletic Association formed NJCAA Esports to better serve their existing community of member institutions who wanted a competitive association focused on their unique needs and the groups they serve. To date, NJCAA Esports serves over 6,000 students and is working with over 230 institutions.

With a focus on breaking down barriers to entry for member colleges and their students, we have created the only association capable of thoroughly meeting the needs of 2-year and community colleges. The NJCAA Esports offers many program solutions through the association and our partners. These offerings range from program development, competition, media, broadcasting, gearing solutions, and much more!
